Social workers at University Hospital trying to locate family of seriously injured patient

(SAN ANTONIO, TX. May 8, 2009) University Hospital social workers are asking for the public's assistance in finding friends or family of a patient who was transported to the hospital by San Antonio EMS last week. The man, believed to be in his mid 50s, was found down by police May 1, on Cherry Street, located on the Eastside of San Antonio.

This unidentified man is in critical condition and unresponsive. Social workers believe he was assaulted or struck by a vehicle, which resulted in a serious injury. He had a few dollars in his pocket, but no form of identification. He also has several tattoos, including one of an arrow and eagle on his left hand. He is around 5'6" and weighs about 155 pounds.

If you recognize this person, or know his family, please contact University Hospital at 358-2300.
