

Algorithm for Thrombate III® (antithrombin III) during Cardiopulmonary Bypass (CPB) Surgery for Anesthesiologists and Perfusionists

- Thrombate III® will be stored with other coagulation/blood products in the main pharmacy purchasing office refrigerator
- Verbal orders for Thrombate III® will be accepted via anesthesia practitioner or agent (not in Sunrise) and charged in Sunrise by quick charge
- This should be considered a STAT item and immediately delivered to the OR
- Administration is documented in the anesthesia system (PICIS)

Adapted directly from the clinical protocol from Case Cardiac Anesthesia Group
