Next Meeting: July 27, 2022

Training Descriptions

Introduction to Trauma-Informed Care (1 Hr)

In this course, attendees will receive an overview of key elements to help build their foundation of trauma-informed care. This includes an introduction to Adverse Childhood Experiences, the impact of trauma, and trauma-informed care. This session will also highlight how the Institute can help organizations on their journey towards trauma-informed certification.

Implementing Trauma-Informed Care Principles (1 Hr)

In this course, attendees will receive an overview of the impact of trauma and an introduction to the six key principles of a trauma-informed approach. The information in this course will serve as building blocks to help you on your trauma-informed journey. The presentation is derived from *Basics of ACEs, trauma, building resilience and using a Trauma Informed Approach* training by international author and speaker, Becky Haas.

ACE Interface Training (1.5 Hrs)

In this course, attendees will learn about the Adverse Childhood Experiences (ACE) study, along with neurology that explains why ACEs have an immense effect on people's lives, and what we can all do to dramatically improve health and resilience for this and future generations. Trainings are conducted by a Master ACE Trainer.

Trauma-Informed Care Awareness Month Events

If you missed Trauma-Informed Care Awareness Month in May, it is not too late to view several learning events that took place! The Institute partnered with the presenters to record the sessions and available only on the Institute's Learning Management System, Bridge. For to these recordings, please contact the Institute at iticsa@uhs-sa.com.
